**FREE!**  
**PUBLIC**  
**WELCOME!**

**January 7 – *Water Before Anything*** – 40 minutes - World Premiere of documentary made by OSU Graduate Student Sarah Sheldrick. Film tells the story of the Umatilla County Critical Groundwater Solutions Taskforce, a volunteer group that has been working to enhance and protect groundwater in the Umatilla Basin. The group has just completed a 2050 Plan and needed a way to share their message with their neighbors and the community. View the four minute trailer at Google Video. Come meet Sarah!

**January 14 - *Blue Gold: World Water Wars Part I*** – 45 minutes – Film is based on the book Maude Barlow co-wrote with Tony Clarke, *Blue Gold: The Fight to Stop the Corporate Theft of the World's Water*. View the trailer on You Tube.

**January 21 – *Blue Gold: World Water Wars Part II*** – 45 minutes – Film is based on the book Maude Barlow co-wrote with Tony Clarke, *Blue Gold: The Fight to Stop the Corporate Theft of the World's Water*. View the trailer on You Tube.

**January 28 - *The American Southwest: Are We Running Dry?***- 57 minutes – Encore performance by Jim Thebaut's earlier movie *Running Dry* shown at OSU in 2005. Read a review on Michael Campana's Blog "WaterWired". Come meet Jim Thebaut if he can fit OSU into his schedule after a hopeful Oscar nomination.

**February 4 – *Liquid Assets Part I*** – 45 minutes - *Liquid Assets* explores the history, engineering, and political and economic challenges of our water infrastructure, and engages communities in local discussion about public water and wastewater issues. View the trailer at <http://liquidassets.psu.edu/>

**February 11 - *Liquid Assets Part II*** – 45 minutes – *Liquid Assets* explores the history, engineering, and political and economic challenges of our water infrastructure, and engages communities in local discussion about public water and wastewater issues. View the trailer at <http://liquidassets.psu.edu/>

**February 18 – *The Unforeseen Part I*** – 45 minutes – A documentary about the development around Barton Springs in Austin, Texas, and nature's unexpected response to being threatened by human interference. Incredible underwater footage. View the trailer at [www.theunforeseenfilm.com/](http://www.theunforeseenfilm.com/)

**February 25 – *The Unforeseen Part II*** – 45 minutes – A documentary about the development around Barton Springs in Austin, Texas, and nature's unexpected response to being threatened by human interference. Incredible underwater footage. View the trailer at [www.theunforeseenfilm.com/](http://www.theunforeseenfilm.com/)

**March 4 – *FLOW Part I*** – 45 minutes – Award-winning documentary investigation into what experts label the most important political and environmental issue of the 21st Century - The World Water Crisis. Interviews with scientists and activists intelligently reveal the rapidly building crisis, at both the global and human scale, and the film introduces many of the governmental and corporate culprits behind the water grab, while begging the question "CAN ANYONE REALLY OWN WATER?" View the trailer at <http://flowthefilm.com/trailer>

**March 11 – *FLOW Part II*** – 45 minutes - View the trailer at <http://flowthefilm.com/trailer>
