Dr. Michael Campana, Director
Oregon State University
Institute for Water & Watersheds
210 Strand Agriculture Hall
Corvallis, OR 97331-2208

Dear Dr. Campana,

On November 6th, Dr. Todd Jarvis visited my classroom in Ione, a rural eastern Oregon town of 250 residents. He did an absolutely wonderful job presenting about how groundwater is affecting our area and what kinds of things we can do to protect and enhance our water supplies.

As an educator, and OSU College of Agriculture and Education graduate, I was completely impressed with his style and his presentation approach. We had a class makeup of 6th, 8th and 11th graders and he was able to reach all the levels and do a fantastic job.

Thank you very for allowing him the flexibility to visit our school and give the next generation the opportunity to learn for professionals.

Sincerely,

Erin Heideman
Science and Agriculture Teacher
Ione Community School

cc. Dr. Todd Jarvis, *Assistant Professor of Geosciences, Oregon State University*

*"Never doubt that a small group of thoughtful, committed citizens
can change the world"*

Thank you for showing us what happens when you flush a toilet and what is happening to our water supply underground.

Thanks a lot

Bryce

Dear Mr. Jarvis,

I really enjoyed the fiber-glass ground water model and I learned

Dear Mr. Jarvis

much more than I thought I would. Thanks ~~for~~ ~~you~~

I learned a lot from your lesson. I can't believe that just by flushing the toilet, we can pollute. Thanks for everything come back soon

From

Tanner Rietmann

Dear Mr. Jarvis

I learned some pretty cool facts from you. I thought that your presentation was really cool, and it surprised me that we can pollute just by flushing the toilet. Thanks!

Beth Moller

Dear MR. JARVIS

I think that's pretty sweet that you came all the way here to teach us something about world and the water and what we are doing to it. Thank you very much for answering Emily's question about what classes you took to get where you are today that helped me out a lot. THANK YOU
Shelby Lynn

Thank u, Dr. Jarvis for coming to our class on Nov. 6, 2006. I learned alot with you teaching us. Thanks again

Jarvis

Thank you Dr. Jarvis for coming to our class and teaching us about ground water pollution.

- Jake - your assistant

who's fly was down and ~~no~~ ~~body~~ bothered to tell me

Thank you very much Mr. Jarvis for coming to our school and teaching us many things.

Mariah

Thanks for teaching us so much about flowing water, and some other things

- Tom

Thank you for coming into are class, and teach us about are water streams right below us. And that we have to take care of it.

-Marco Thanks again.
