

Dear Todd,

Thank you for coming to our school. Your presentation was wonderful! The model was a great way for the students to observe how ground water moves and gets polluted. I could tell from the student's discussion and questions that they enjoyed it and learned a lot. Thanks so much for your time. We felt grateful that you could visit our school and share your expertise.

Sincerely,

Holly Whitten

Dear Todd,

I didnt think about what
I said Basol is prity awesome,
and that model was cool.

Avery

Dear Todd

Thank you for coming to
our class room. I learned that
water comes from basalt. it
moves by gravity.

Dear Todd

Thank you for coming

to our classroom. I find

that we have the biggest wheel

and I also find that words come for

BSA and told to us over

for Parker
