1ST ANNUAL No-Till Cotton FIELD DAY

May 25, 2007 • Friday
10 am - Noon

University of California
West Side Research and Extension Center

Oakland and Lassen Avenues
Five Points, CA
(559) 884-2411

Burrito lunch available.

Although there is currently no commercial no-till cotton production in the San Joaquin Valley (SJV), over the past several years University of California researchers have been evaluating a number of no-till cotton production options in an effort to develop cheaper, yet economically profitable alternatives. This field day will present information that has resulted from these studies and will provide opportunities for SJV producers to learn about no-till management options, equipment and economics.
