CornProdTour
in subject line.

The use of strip-tillage is being evaluated at an increasing number of San Joaquin Valley dairies as a means to cut production costs, and to shorten the time between winter forage crop harvest and corn planting.

This field tour will feature three Kings County dairy farmers who have strip-tilled their 2007 corn. The tour will begin at Giacomazzi Dairy and then move on to Camara Dairy and the dairy of Larry and Daniel Soares.

8:30

Giacomazzi Dairy

Highway 198 and 6th Ave
Hanford, CA

10:00
