

### Mexican Wolf Blue Range Reintroduction Project Statistics

Translocations of Mexican wolves into the Blue Range Wolf Recovery Area, Arizona and New Mexico, 1998-2007.

**Data Current as of 31 December 2007**

Year	1998	1999	2000	2001	2002	2003	2004	2005	2006	2007	Total
Number of individual wolves translocated <sup>a</sup>	3	2	18	6	7	15	9	16	6	5	87
Number of translocation events <sup>b</sup>	3	1	10	4	5	8	2	5	3	3	44

<sup>a</sup> A translocation is defined when an individual free-ranging wolf is captured and moved to a location within either the Primary or Secondary Recovery Zone but away from the site of capture. This includes captured wolves that have been temporarily housed in captivity. Initial releases are not included in this table (see Table 4).

<sup>b</sup> A translocation event is defined as a Project activity occurring on the same day and location where one or more wolves are translocated.
