Dear Office of Information and Regulatory Affairs Hunt:

I am extremely upset on the OMB's conclusion that the lives of senior citizens are less valuable and proposes to devalue the life of a human over 70 to 2/3 that of the rest of the population. As an AARP member I am contacting fellow members and my senatorial and congressional constituents on the absurdity of this proposal! This is a mere pretext to cut the value of health and safety standards in order to protect their industries that stand to gain from this White House initiative. The OMB's conclusion that the lives of senior citizens are less valuable raises very serious ethical and scientific questions which we seniors, the voting majority are not going to tolerate!

Enraged Felipe D. Garcia

Sincerely,

Felipe D. Garcia
