Dear FSIS,

We urge you to:

- 1: CLEARLY LABEL ALL OF THE GENETIC ENGINEERING FOODS ON EVERY PRODUCT.
- 2: WE ALSO URGE YOU TO PROHIBIT THE SELLING OF GENETIC ENGINEERING FOODS .

An example of un-tested, un-approved food modification: One of the numerous of GE food side effects can KILL -- 37 people died, 1500 were partially paralyzed, and 5000 more were temporarily disabled by a syndrome that was finally linked to tryptophan made by genetically-engineered bacteria.

For the sake of the HEALTH of the entire human specie, again, please STOP and PROHIBIT the selling of Genetic Engineering foods. At the very least , it must have big and clear label on every item of the Genetic Engineering foods on every shelf across the world.

Let the consumer decide, NOT the big corporations for what is good for themselves!

Truly,
