ATT514259.htm (2 KB)

Dear FSIS Docket Clerk,

I would like to request the proposed approval to add New Zealand and Australia to the list of foreign countries that are authorized to import poultry products (Ratites only) into the United States be rejected. We have worked very hard to get our industry, American ratite industry, established in this country. We do not need competition from foreign countries here in the United States.

There are American farmers from all over this great nation who have struggled for years to get us where we are today. We do not need to have foreign investors reaping the rewards of the sweat and pain we have faced building this industry.

This proposal would damage what we have worked so hard to accomplish these many years. Many farmers have not made it as far as we have today. They have already bankrupt or fallen to the way side. Don't break our backs with this proposal.

Please reject this Docket 02-015DF!!!!

Respectfully,

Steven T. Moore /s/
