Subject: Restricting Our Freedoms Regarding the Use of Vitamins, Supplements, Essential Oils, etc.

Dear Sir/Madam:

I wish to very strongly voice my dissent in allowing large pharmaceutical companies to restrict our use of various health supplements, vitamins, essential oil products, and so forth. The movement of these large multi-nationals to control our freedom of choice in this way is, in my opinion, a ploy to corner the market on these products and generate huge profits for themselves. Their selfish actions are profoundly repugnant to me.

Yours sincerely,

Trevor Josephson, Ph.D., C. Psych. (AB)
