Subject: Please delete item 5.9 of agenda item No. 6 in the draft guidelines for vitamin

Please delete item 5.9 of agenda item No. 6 in the draft guidelines for vitamin and mineral supplements. Let us not harmonize international food and supplement labeling to inadequate labeling. United States law provides the best availability of information. That should be our example and gift to the world. Item 5.9 of the labeling proposal is regressive and misleading.

The above labeling proposal should be eliminated because it is in violation of U.S. law, the Dietary Supplement Health and Education Act of 1994, DSHEA, Public Law 103-417, and is in violation of national U.S court case law, Pearson v. Shalala.

Sincerely
Diane Solomon
