Carolyn Monachelli

This is to respectfully and urgently request that Item 5.9 of Agenda item No. 6 in the draft guidelines for vitamin and mineral supplements be deleted.

Every citizen has the right and responsibility to monitor their intake of dietary supplements without having to get a written prescription from a health care professional who most likely has no knowledge of nutritional supplementation.

Please delete this item from the agenda and preserve everyone's right to research and implement their own nutritional supplementation.

Thank you.  
Carolyn Monachelli
