Bari Henderson

Dear Ms. Crane,

I am writing to ask that Item 5.9 of Agenda number 6 of the Labeling Proposal be DELETED. I have researched and been using vitamins and herbal supplements for years. It would make it virtually IMPOSSIBLE for me to maintain my health if it became a law for me to go through a nutritionist, dietician or medical doctor in order to obtain the necessary supplements.

I am genetically predisposed for a number of physical ailments. I have two, out of three, sisters with inflammatory and auto-immune disorders. As well, my bloodwork indicates that I SHOULD have various illnesses like my sister suffer from. I attribute my health to the fact that I have exercised my RIGHTS in choosing to use supplementation to support my body in MAINTAINING health. I have watched as my sisters have chosen otherwise and whose health has DETERIORATED with the attempts of western medical doctors to treat their SYMPTOMS.

I implore you to please see that Item 5.9 of Agenda number 6 of the Labeling Proposal be REMOVED from this document. Thank you for taking the time and consideration to see that this is resolved.

In Health-
