Dear Ms Crane,

The CODEX folks are at it again. Item 5.9 of agenda # 6 is against our DSHEA 1994.

Yet another example to circumvent US sovereignty. US citizens are the ultimate seekers of nutritional information. I am against the labeling suggestion and want it removed. In fact, I am against the US involvement in the CODEX treaty altogether! But, at this point it looks like we've been drawn in.

Thank you,

Sincerely,
Brian J. MacNamara
