Ken Winston Caine

Thank you for soliciting public comments.

I object to the U.S. proposed draft position on labeling, item 5.9, which states: "We recommend the following revision: 'All labels should bear a statement that a supplement should be taken on the advice of a nutritionist, a dietician, or a medical doctor'"

This violates the Dietary Supplement Health and Education Act of 1994 that Congress wisely passed to protect U.S. citizens' rights to personally research and select what is appropriate in regard to their personal nutrition and nutritional supplements. Please respect the intent and spirit of that law.

Best,
Ken Winston Caine
