As one who took doctor prescribed drugs for over 10 years for an "inherited and incurable disease" according to said doctors and specialists...to no avail...except to suffer the consequences and terrible side effects of said drugs....and in desperation turned to alternative therapies to heal herself...I beseech you to keep your eye on the pharma-drug cartel industry concerning safety and leave the natural supplement industry alone...drugs are a far greater hazard to the welfare of our populace. Thank you... Sincerely, Pamela Wunder
