

Dear Ms. Veneman: 138

Thank you for banning the slaughter of downed animals for human consumption. I understand only cows are covered on this change. Please extend it to all animals in the name of "HUMAN" decency. These animals serve us, life in turn should SERVE them in this small way.

I am a vegetarian for health reasons, but I sympathize w/ the meat eaters who crave blood and tissue for food. So if this will help them also - that's good.  
Thank you so much
