To Whom It May Concern:  
I wanted to thank the  
the USDA for the emergency  
measures taken to ban the  
slaughter of downed cattle  
for human consumption.

Please make the ban  
permanent, and to include

all downed animals —  
sheep, pigs, + other livestock, as  
well as cattle — in the final  
ban. Lastly, I ask that the  
USDA add a requirement  
that all downed animals be  
humanely euthanized, whenever  
they become downed.

Sincerely,

Barbara K. Levy
