Docket 03-025IF

Thank you for deciding that downed cattle could no longer be consumed by people. I hope this ban is full and final. It is my understanding however that other downed animals can be sold, such as sheep and pigs. This is clearly not acceptable and I would like to request it be banned.

Also, animals should be euthanized immediately once downed, rather than left to linger and suffer. Without a rule about this, apparently farmers are not doing the right thing.

Thank you,

Prosper Barter Kasrel
