

8

I certainly hope that  
the USDA permanently  
bans the slaughter of  
all "downed animals".

This should also include  
sheep, pigs and goats!

The USDA should  
require that all of these  
"immobile" animals  
immediately be euthanized  
whenever they become "downed"  
to prevent their suffering!

Sincerely  
Mrs. Jill A. Axt
