General Comment: The U.S. House of Representatives voted 269-158 and the Senate voted 69-28 to

amend the Agriculture Appropriations bill to halt horse slaughter in 2006. I am outraged that this victory may slip away, simply because administrative bureaucrats are openly betraying the American people, scheming to continue horse slaughter inspections, and catering to a cruel and un-American industry. Do not let these foreign countries continue this on our American soil. We as Americans have the right to stop this abuse and murder of our precious Equines.

This practice is truly un-American and needs to be stopped now. Please do not accept their "blood stained money". Please, stop this fee-for-service program.

Refuse to inspect these slaughtered horses. Put a stop to the slaughter of our beautiful equine companions. The American people are depending on our Government to take a stand against this abomination. Please, take this stand for us and stop the murder of our equines, forever, on our soil.
