THE SCIENCE OF ENERGY BALANCE: CALORIE INTAKE AND PHYSICAL ACTIVITY			
Kansas Science Standards: Grades 5 – 7			
Lesson	Standard	Indicator	
1, 2, 3, 4	1.1.1	Identifies questions that can be answered through scientific investigations.	
1, 2, 3, 4	1.1.2	Designs and conducts scientific investigations safely using appropriate tools, mathematics, technology, and techniques to gather, analyze, and interpret data. a. designs and conducts an investigation on a question. Components of the investigation may include background and hypothesis, identification of variables (independent variable, dependent variable, variables to be held constant), list of materials, procedures, collection and analysis of data, and conclusions. Given an investigative question, determines what to measure and how to measure. Displays data collected from performing in investigation using tables, graphs, diagrams and other graphic organizers.	
All lessons	1.1.3	Identifies the relationship between evidence and logical conclusions.	
1, 2, 3, 4	1.1.4	Communicates scientific procedures, results and explanations.	
1, 2, 3, 4	1.2.1	Develops questions and adapts (frames) the inquiry process to guide the appropriate type of investigation.	
1, 2, 3, 4	1.2.2	Differentiates between qualitative and quantitative data in an investigation.	
1, 2, 3, 4	1.3.1	After completing an investigation, generates alternative methods of investigation and/or further questions for inquiry.	
1, 2, 3, 4	1.3.2	Evaluates the work of others to determine evidence which scientifically supports or contradicts the results, identifying faulty reasoning or conclusions that go beyond evidence and/or are not supported by data.	
All lessons	2.4.2	Understands that when work is done energy transforms from one form to another, including mechanical, heat, light, sound, electrical, chemical, and nuclear energy, yet is conserved.	
3, 4, 5	3.1.4	Concludes that breakdowns in structure or function may be caused by disease, damage, heredity, or aging.	
3, 4, 5	3.2.3	Infers that the characteristics of an organism result from heredity and interactions with the environment.	
All lessons	3.3.1	Understands that internal and/or environmental conditions affect an organism's behavior and/or response in order to maintain and regulate stable internal conditions to survive in a continually changing environment.	
3, 4	3.5.1	Concludes that species of animals, plants, and microorganisms may look dissimilar on the outside but have similarities in internal structures, developmental characteristics, chemical processes, and genomes.	
3, 4	5.2.3	Identifies contributions to science and technology by many people and many cultures.	
All lessons	6.1.1	Identifies individual nutrition, exercise, and a rest needs based on science and uses a scientific approach to thinking critically about personal health, lifestyle choices, risks and benefits.	
All lessons	7.1.1	Practices intellectual honesty, demonstrates skepticism appropriately, displays open-mindedness to new ideas, and bases decisions on evidence.	

Kansas Mathematics Standards: Grades 6 – 8		
Grade 6		
Lesson	Standard	Knowledge Base Indicator
1, 2, 3, 4	1.1.1	Knows, explains, and uses equivalent representations for rational numbers expressed as fractions, terminating decimals, and percents; positive rational number bases with whole number exponents; time; and money.
1, 2, 3, 4	1.1.4	Knows and explains numerical relationships between percents, decimals, and fractions between 0 and 1 (2.4.K1a,c), e.g., recognizing that percent means out of a 100, so 60% means 60 out of 100, 60% as a decimal is .60, and 60% as a fraction is 60/100.
1, 2, 3, 4	1.4.1	Computes with efficiency and accuracy using various computational methods including mental math, paper and pencil, concrete objects, and appropriate technology.
1, 2, 3, 4	2.2.4	Explains and uses equality and inequality symbols (=, $\neq$ , <, $\leq$ , >, $\geq$ ) and corresponding meanings (is equal to, is not equal to, is less than or equal to, is greater than, is greater than or equal to) to represent mathematical relationships with positive rational numbers.
1, 2, 3, 4	2.4.1	Knows, explains, and uses mathematical models to represent mathematical concepts, procedures, and relationships.
1, 2, 3, 4	2.4.2	Uses one or more mathematical models to show the relationship between two or more things.
2	3.2.1	Determines and uses whole number approximations (estimations) for length, width, weight, volume, temperature, time, perimeter, and area using standard and nonstandard units of measure.
2	3.2.2	Selects, explains the selection of, and uses measurement tools, units of measure, and level of precision appropriate for a given situation to find accurate rational number representations for length, weight, volume, temperature, time, perimeter, area, and angle measurements.
2	3.2.3	<ul> <li>Converts:</li> <li>a. within the customary system, e.g., converting feet to inches, inches to feet, gallons to pints, pints to gallons, ounces to pounds, or pounds to ounces;</li> <li>b. within the metric system using the prefixes: kilo, hecto, deka, deci, centi, and milli; e.g., converting millimeters to meters, meters to millimeters, liters to kiloliters, kiloliters to liters, milligrams to grams, or grams to milligrams.</li> </ul>
All lessons	4.2.1	Organizes, displays, and reads quantitative (numerical) and qualitative (non-numerical) data in a clear, organized, and accurate manner including a title, labels, categories, and rational number intervals using these data displays: <ul> <li>a. graphs using concrete objects;</li> <li>b. frequency tables and line plots;</li> <li>c. bar, line, and circle graphs;</li> <li>d. Venn diagrams or other pictorial displays;</li> <li>e. charts and tables;</li> <li>f. single stem-and-leaf plots;</li> <li>g. scatter plots.</li> </ul>
2	4.2.3	Uses sampling to collect data and describe the results.

## KANSAS ALIGNMENT FOR NIH SUPPLEMENT THE SCIENCE OF ENERGY BALANCE: CALORIE INTAKE AND PHYSICAL ACTIVITY

Grade 7		
1, 2, 3, 4	1.1.1	Knows, explains, and uses equivalent representations for rational numbers and simple algebraic expressions including integers, fractions, decimals, percents, and ratios; integer bases with whole number exponents; positive rational numbers written in scientific notation with positive integer exponents; time; and money.
1, 2, 3, 4	1.4.1	Computes with efficiency and accuracy using various computational methods including mental math, paper and pencil, concrete objects, and appropriate technology.
1, 2, 3, 4	2.1.1	Identifies, states, and continues a pattern presented in various formats including numeric (list or table), algebraic (symbolic notation), visual (picture, table, or graph), verbal (oral description), kinesthetic (action), and written.
3, 4	2.2.1	Knows and explains that a variable can represent a single quantity that changes, e.g., daily temperature.
3, 4	2.2.3	Shows and explains how changes in one variable affect other variables.
1, 2, 3, 4	2.2.4	Knows, explains, and uses mathematical models to represent and explain mathematical concepts, procedures, and relationships.
2	3.2.2	Selects and uses measurement tools, units of measure, and level of precision appropriate for a given situation to find accurate rational number representations for length, weight, volume, temperature, time, perimeter, area, and angle measurements.
2	3.2.3	Converts within the customary system and within the metric system.
All lessons	4.2.1	Organizes, displays, and reads quantitative (numerical) and qualitative (non-numerical) data in a clear, organized, and accurate manner including a title, labels, categories, and rational number intervals using these data displays: <ul> <li>a. frequency tables;</li> <li>b. bar, line, and circle graphs;</li> <li>c. Venn diagrams or other pictorial displays;</li> <li>d. charts and tables;</li> <li>e. stem-and-leaf plots (single);</li> <li>f. scatter plots;</li> <li>g. box-and-whiskers plots.</li> </ul>
		Grade 8
1, 2, 3, 4	1.1.1	Knows, explains, and uses equivalent representations for rational numbers and simple algebraic expressions including integers, fractions, decimals, percents, and ratios; rational number bases with integer exponents; rational numbers written in scientific notation with integer exponents; time; and money.
1, 2, 3, 4	1.4.1	Computes with efficiency and accuracy using various computational methods including mental math, paper and pencil, concrete objects, and appropriate technology.
1, 2, 3, 4	1.4.2	Performs and explains computational procedures with rational numbers.
3, 4	2.1.1	Identifies, states, and continues a pattern presented in various formats including numeric (list or table), algebraic (symbolic notation), visual (picture, table, or graph), verbal (oral description), kinesthetic (action), and written.
3, 4	2.2.1	Identifies independent and dependent variables within a given situation.
1, 2, 3, 4	2.2.4	Knows and describes the mathematical relationship between ratios, proportions, and percents and how to solve for a

## KANSAS ALIGNMENT FOR NIH SUPPLEMENT THE SCIENCE OF ENERGY BALANCE: CALORIE INTAKE AND PHYSICAL ACTIVITY

		missing monomial or binomial term in a proportion.
1, 2, 3, 4	2.4.1	Knows, explains, and uses mathematical models to represent and explain mathematical concepts, procedures, and relationships.
2	3.2.2	Selects and uses measurement tools, units of measure, and level of precision appropriate for a given situation to find accurate real number representations for length, weight, volume, temperature, time, perimeter, area, surface area, and angle measurements.
2	3.2.3	Converts within the customary system and within the metric system.
All lessons	4.2.1	Organizes, displays and reads quantitative (numerical) and qualitative (non-numerical) data in a clear, organized, and accurate manner including a title, labels, categories, and rational number intervals using these data displays: <ul> <li>a. frequency tables;</li> <li>b. bar, line, and circle graphs;</li> <li>c. Venn diagrams or other pictorial displays;</li> <li>d. charts and tables;</li> <li>e. stem-and-leaf plots (single and double);</li> <li>f. scatter plots;</li> <li>g. box-and-whiskers plots;</li> <li>h. histograms.</li> </ul>

Uses paraphrasing and organizational skills to summarize information (e.g., stated and implied main ideas, main events, important details) from appropriate-level narrative, expository, persuasive, and technical texts in logical order.         Identifies the topic, main idea(s), supporting details, and therme(s) in text across the content areas and from a variety of sources in appropriate-level texts.

Kansas Writing Standards: Grades 6 – 8		
Lesson	Standard	Knowledge Base Indicator
All lessons	1.2.2	Clarifies the main idea by selecting logical details that are accurate and helpful (6 <sup>th</sup> & 7 <sup>th</sup> ). Clearly identifies the main idea with selection of relevant, logical details that meet the reader's informational needs (8 <sup>th</sup> ).
All lessons	1.2.3	Practices/uses writing using (1) personal experience (2) observations (3) prior knowledge (4) research to provide information using an appropriate point of view for the piece (e.g. 3 <sup>rd</sup> person pronouns in research).
All lessons	1.2.4	Expresses information in own words using evidence and examples (6 <sup>th</sup> & 7 <sup>th</sup> ). Expresses information in own words and uses explicit techniques to appeal to the backgrounds and interests of the audience (8 <sup>th</sup> ).
All lessons	1.2.9	Writes a complete piece that contains a clear introduction, reasonable body, and satisfying conclusion (6 <sup>th</sup> & 7 <sup>th</sup> ). Develops a cohesive piece that contains an engaging introduction, a body that provides information, and a conclusions that reinforces the thesis statement and leaves the reader with a sense of completion (8 <sup>th</sup> ).
All lessons	1.2.14	Practices/selects specialized vocabulary that is appropriate for expository writing and provides for ease of understanding.
All lessons	1.2.19	Demonstrates/uses correct use of mechanics and simple punctuation.
All lessons	1.2.21	Spells familiar and most unfamiliar words correctly and uses available resources (e.g. dictionary, spell check).
All lessons	1.3.10	Writes with an awareness of purpose and audience (e.g. letters, simple reports, directions, graphics, brochures, electronic presentation, newsletters).
All lessons	1.3.13	Selects words appropriate for the intended task/format (e.g. persuasive, if persuading; informational, if informing, etc.).
All lessons	1.3.14	Writes compact sentences or phrases that make the point clear.
1, 2, 3, 4	1.3.18	Uses graphic devices that are supportive of the text (e.g. charts, graphs, illustrations).
5	1.4.1	Composes a thesis statement based upon an opinion or belief (6 <sup>th</sup> & 7 <sup>th</sup> ). Asserts an arguable proposition or opinion (thesis statement) (8 <sup>th</sup> ).
5	1.4.2	Practices/uses (1) personal experience (2) observations (3) prior knowledge (4) research important for the reader to reach a conclusion and use an appropriate point of view for the piece (e.g. 1 <sup>st</sup> person in editorial).
5	1.4.3	Develops details to expand the main topic and to support the writer's position.
5	1.4.5	Practices building a focused argument (6 <sup>th</sup> ) that utilizes logical thinking (7 <sup>th</sup> ) and appeals to reason, authority, and/or emotion (8 <sup>th</sup> ).
5	1.4.12	Uses language that is appropriate for persuasive writing and easy for the audience to understand.
		Kansas Health Education Standards: Grades 5 – 8
Lesson	Standard	Descriptor
1, 3, 4, 5	1.1	Explain the relationship between positive health behaviors and wellness.
3	1.2	Describe the effects of the interrelationship of mental, emotional, social and physical health during adolescence.

## KANSAS ALIGNMENT FOR NIH SUPPLEMENT THE SCIENCE OF ENERGY BALANCE: CALORIE INTAKE AND PHYSICAL ACTIVITY

3, 4	1.3	Observe the influence of family, community, and peer on adolescent health decisions.
All lessons	1.4	Describe ways to reduce risks related to adolescent growth and development.
5	2.1	Demonstrate the ability to locate health products, services and information, explore their validity, and compare their costs.
3	2.3	Describe situations requiring professional health services.
All lessons	3.1	Explain the importance of assuming responsibility for health behaviors.
All lessons	3.2	Recognize strategies to maximize health strengths within their personal health assessment.
All lessons	3.3	Recognize risky and harmful health behaviors.
5	4.2	Analyze how messages from media and other sources influence health behaviors.
4	4.3	Analyze the influence of technology on health.
2, 3, 5	4.4	Analyze how information from peers influences health.
All lessons	5.2	Demonstrate communication skills to build and maintain a variety of healthy relationships.
3, 5	6.1	Demonstrate the ability to apply a decision-making model to develop a plan of personal strengths, needs, and health risks.
All lessons	7.2	Share information and express opinions about current issues in health.
3, 4, 5	7.3	Demonstrate the ability to work cooperatively with peers when advocating for healthy individuals, families, and schools.
