

Current JSAG Objectives/Focus

- **Provide an integrated vision of graduate-level space education**
- **Identify and promote collaborative efforts between AFIT, NPS and other institutions involved in space-related graduate education**
 - **Faculty collaboration**
 - **Sharing of course materials**
 - **Joint support for seminars, design project reviews, etc**
 - **Research collaboration**
 - **Distance Learning (DL) student course exchanges**
 - **Collaborative efforts now include National Security Space Institute, Air University and Space Education Consortium**
- **Facilitate implementation of Joint Space Oversight Board recommendations**

- Focus attention on need for increased levels of graduate technical space education within the DoD Space Professional Community
 - Develop and promote opportunities for increased throughput to in-residence and DL graduate space education programs
