One-VA Registration and Eligibility aims to fill the identified gap, which is to "Simplify the administrative rules and regulations governing the application and eligibility determination process" and "Provide veterans with easy access to information and the opportunity to interact with VA for benefits and services, at a convenient time and place. Veterans, service members, and educational institutions will have the opportunity to obtain information, apply for benefits and/or interact with VA through the Internet and toll free telephone service." This is also stated in the Secretary's strategic plan. This project supports DoD/VA joint initiatives in support of the seamless transition of service personnel returning from Iraq and Afghanistan and will leverage the OneVA wide-area network, various cyber-security centralization projects, data from the Defense Enrollment Eligibility Reporting System (DEERS) and data from the Defense Information Management Human Resource System (DIMHRS).The oneVA RE programs' objective is to provide a veteran focused delivery environment that will enhance and improve eligibility determination, administration and delivery of benefits across VA administrations. To meet these goals and objectives RE uses a portfolio based approach. The portfolios identified are: DoD/VA Data Sharing. Inter-Administration Data Sharing, Enhanced Veteran Benefit Self Service and Identity Management. In FY2009, One VA RE plans to move into development lifecycle phase for these portfolios. The Exhibit 300 has been modified to reflect the passback for FY '08 and FY '09.

OMB Text Limitations - SHORT ANSWER(250 Characters), MEDIUM ANSWER(500 Characters) and LONG ANSWER(2500 Characters)

Section F: Enterprise Architecture (EA) (IT Capital Assets only)

In order to successfully address this area of the business case and capital asset plan you must ensure the investment is included in the agency's EA and Capital Planning and Investment Control (CPIC) process, and is mapped to and supports the FEA. You must also ensure the business case demonstrates the relationship between the investment and the business, performance, data, services, application, and technology layers of the agency's EA.

I.F.1) Is this investment included in your agency's target enterprise architecture?

Yes

I.F.1.a) If "no," please explain why? (LONG ANSWER)

I.F.2) Is this investment included in the agency's EA Transition Strategy?

Yes

I.F.2.a) If "yes," provide the investment name as identified in the Transition Strategy provided in the agency's most recent annual EA Assessment. (MEDIUM ANSWER)

Registration-Eligibility (EA-46)

I.F.2.b) If "no," please explain why? (LONG ANSWER)

I.F.3) Is this investment identified in a completed (contains a target architecture) and approved segment architecture?

Yes

I.F.3.a) If "yes," provide the name of the segment architecture as provided in the agency's most recent annual EA Assessment.(MEDIUM ANSWER)

Identity Management Services Segment.

I.F.3) FEA SERVICE REFERENCE MODEL:

I.F.3) Identify the service components funded by this major IT investment (e.g., knowledge management, content management, customer relationship management, etc.). Provide this information in the format of the following table. For detailed guidance regarding components, please refer to <http://www.whitehouse.gov/omb/egov/>.

SERVICE COMPONENT TABLE:

	Agency Component Name(SHORT ANSWER)	Agency Component Description (MEDIUM ANSWER)	FEA SRM Service Type	FEA SRM Component (a*)	FEA Service Component Reused : Component Name (b*)	FEA Service Component Reused : UPI (b*)	Internal or External Reuse? (c*)	BY Funding Percentage (d*)
1	Registration	Customer Service	Customer Initiated Assistance	Reservations / Registration	Identification and Authentication		Internal	
2	Self Services	Customer Service	Customer Initiated Assistance	Self-Service	Identification and Authentication		Internal	
3	Customer Management	Customer Service	Customer Relationship Management	Customer / Account Management	Benefit Management		Internal	
4	Eligibility Determination	Business Management Services	Management of Processes	Business Rule Management			No Reuse	

5	Eligibility Determination	Business Management Services	Management of Processes	Governance / Policy Management			No Reuse	
6	Information Sharing	Digital Asset Services	Knowledge Management	Information Sharing			No Reuse	

NOTE:

(a*) - Use existing SRM Components or identify as "NEW". A "NEW" component is one not already identified as a service component in the FEA SRM.

(b*) - A reused component is one being funded by another investment, but being used by this investment. Rather than answer yes or no, identify the reused service component funded by the other investment and identify the other investment using the Unique Project Identifier (UPI) code from the OMB Ex 300 or Ex 53 submission.

(c*) - 'Internal' reuse is within an agency. For example, one agency within a department is reusing a service component provided by another agency within the same department. 'External' reuse is one agency within a department reusing a service component provided by another agency in another department. A good example of this is an E-Gov initiative service being reused by multiple organizations across the federal government.

(d*) - Please provide the percentage of the BY requested funding amount used for each service component listed in the table. If external, provide the funding level transferred to another agency to pay for the service.

I.F.4) FEA TECHNICAL REFERENCE MODEL:
