

AIDS Lecture January 25, 1989
18/13

Current Issues in AIDS
By
C. Everett Koop, MD, ScD
Surgeon General
Of the
U.S. Public Health Service
U.S. Department of Health and Human Services

Presented to the Bexar County Medical Society
San Antonio, Texas
January 25, 1989

It had been 9 days since I had spoken in Marseille, France to a public audience, on AIDS.

This lecture, except for personal greetings and references to my long association with the medical community of San Antonio, is the same lecture that I presented to the American Council on Life Insurance, in New York on the 15th of November, 1988, under the same title, "Current Issues in AIDS."

No new salient facts are given, no index is necessary.
