U.S. Public Health Service  
U.S. Department of Health and Human Services

Presented to Employees of Southwest Bell  
San Antonio, Texas  
January 26, 1989

---

It had been 1 day since I had last spoken to a public audience on the AIDS epidemic.

This lecture, except for personal references to friends at Southwest Bell, and references to my long association with the medical community of San Antonio, is identical to the lecture I presented on the 10<sup>th</sup> of November, 1988 to the National Management Conference of the Bureau of Alcohol, Tobacco, and Firearms in Washington, D.C. under the title of, "Working with Persons with AIDS."

No new salient points are included. There is no index.
