All Poultry Processors

NOTICE TO THE TRADE – DECEMBER 2006

The Department of Agriculture, Agricultural Marketing Service, Poultry Programs, and the Food and Nutrition Service are approving poultry processors to substitute boneless/skinless breast trim meat for boneless/skinless wing meat utilizing the Standard Yield program when processing donated bulk commodities. Only boneless/skinless breast trim resulting from the portion control processing of whole muscle breast/tenderloins meat will be eligible for substitution. This policy does not allow breast trim meat derived from the frame to be substituted for boneless/skinless wing meat.
