Signs of Life	2

Organic producers are required to prevent contamination of their crops by spray drift originating from adjoining lands, roadsides, and rights-of-way. The use of warning signs is one practice, among many, that can aid the effort. While some farmers and ranchers make their own signage, manufactured signs are often well worth the cost. Several suppliers of appropriate signage are listed, with information on their products and prices.

Catnip Farm

Ericka Dana
P.O. Box 72
Victor, IA 52347
319-685-4270

Signs of Life

Twelve designs available:

Half are hand-drawn prints; the rest are photo prints. These signs are suitable for small commercial operations that want to advertise that they are pesticide free, and for non-commercial gardens. Examples of wording include: Proud To Be Pesticide Free! and Welcome To My Organic Garden: Pesticide Free Food!

Sizes:
4"x 6"

Colors:
All are in full color

Material:
Laminated; recycled plastic

Price:
\$2.25 apiece. Shipping and handling costs are \$0.50 for one sign; \$0.25 for each additional sign. Bulk discounts are available.
