$Section \ V-Organizations \ that \ choose \ to \ meet \ the \ ANPRM \ guidelines \ for \ a \ Functionally \ Integrated \ Type \ III \ Supporting \ Organization$

If an organization chooses to meet the guidelines of the ANPRM, it may qualify as a Functionally Integrated Type III Supporting Organization. To meet the guidelines of the ANPRM, an organization must currently meet Item A and represent that it will meet Items B and C below. If an organization meets these guidelines, its determination letter will include a caveat explaining that its continued classification as a Functionally Integrated Type III Supporting Organization is dependent upon its meeting the requirements of final guidance. Because organizations have not previously been afforded an opportunity to satisfy the expenditure and asset tests part of qualifying as a Functionally Integrated Type III Supporting Organization, a representation from an organization that it will satisfy these tests as set forth in Section V, Parts B and C, below, is acceptable. The functionally integrated determination letter will then classify the organization as a Functionally Integrated Type III Supporting Organization. An organization must currently meet the "But For" test in Section V, Part A, below. An organization may represent that it will meet the expenditure and asset tests for its first tax year immediately succeeding the determination letter, at the end of its first and second tax years in the aggregate, at the end of its first, second and third tax years in the aggregate, and at the end of its first four tax years and thereafter on a rolling basis either (1) in the aggregate based on its most recently completed four tax years, or (2) for any three tax years during its most recently completed four tax years.
