Your Adventure is Waiting!

Welcome to the World of Agritourism!

Agritourism is any farm or business that provides an agricultural experience to consumers. These businesses provide education and experiences that cannot be found in urban areas. Visitors to an agritourism business can pick their own fruit, learn how plants grow, pet farm animals, get lost in a corn maze, take a hay ride or sample some of Missouri's award-winning wines.

Missouri's agritourism businesses provide families with a multitude of day trips or weekend adventures. This brochure can assist in planning any adventure. The map plots the general location of the business with a number. The contact information for each business can be found by referencing the business's number in the business listing. Always call ahead or check the business's website before leaving because many agritourism businesses are only seasonally open.

All of the businesses listed in this guide are members of the AgriMissouri™ program. AgriMissouri™ is a membership program, housed within the Missouri Department of Agriculture. It provides members educational workshops, marketing materials and promotional opportunities to grow profitable businesses, as well as provide consumers easy access to AgriMissouri™ products and destinations through media awareness, promotional activities and direct sales.

To learn more about AgriMissouri™ or any of the businesses listed in this guide, visit www.agrimissouri.com or call 1-866-466-8283.

AgriMissouri™ is a program within the
