

**Estimated Number of Infants Identified with Hearing Loss
Enrolled in Early Intervention by Six Months of Age (2003)**

Number of States and Territories Reporting: 35

State / Territory	# Live Births	# Screened	# Identified with Hearing Loss	# Intervention	# Intervention by 6 months	% Intervention by 6 months (# in intervention by 6 months / total # intervention)	% Intervention by 6 months (# in intervention by 6 months / total # Identified)	Notes
Alaska	9,959	8,081	12	8	0	0.00	0.00	Incomplete data because the database was still under development.
Arkansas	37,132	34,185	37	36	23	63.89	62.16	
California	541,834	304,469	473	256	222	86.72	46.93	Only hospitals with certified Newborn Hearing Screening Programs are required to report data to the State. This means data is not available for all of the infants that may have received a hearing screening. It is possible that more infants are enrolled and receiving early intervention than are reflected in these numbers.
Colorado	69,801	67,697	143	100	45	45.00	31.47	
Connecticut	43,299	41,991	47	36	36	100.00	76.60	
Delaware	12,115	10,115	31	28	28	100.00	90.32	This data is incomplete because not all hospitals and birth facilities had the capability to track infants referred for follow-up testing in 2003.
District of Columbia	14,777	14,482	5	5	5	100.00	100.00	
Hawaii	18,082	17,821	54	41	34	82.93	62.96	
Idaho	21,794	19,532	31	29	29	100.00	93.55	
Illinois	163,144	163,144	72	72	21	29.17	29.17	
Indiana	84,270	83,427	82	82	55	67.07	67.07	
Kansas	40,330	39,103	52	13	11	84.62	21.15	
Kentucky	50,627	50,371	22	22	22	100.00	100.00	
Louisiana	64,513	60,388	91	47	25	53.19	27.47	
Massachusetts	81,068	80,117	221	140	99	70.71	44.80	
Minnesota	70,006	65,114	21	21	21	100.00	100.00	This represents only the data that was reported to the state.
Mississippi	41,354	40,778	65	65	55	84.62	84.62	
Missouri	77,878	77,084	149	31	16	51.61	10.74	
Nebraska	26,079	25,359	52	3	2	66.67	3.85	
New Hampshire	13,875	12,655	11	11	7	63.64	63.64	

State / Territory	# Live Births	# Screened	# Identified with Hearing Loss	# Intervention	# Intervention by 6 months	% Intervention by 6 months (# in intervention by 6 months / total # intervention)	% Intervention by 6 months (# in intervention by 6 months / total # Identified)	Notes
New Jersey	111,872	110,071	61	20	15	75.00	24.59	Early intervention data for 2003 is incomplete, reflecting children enrolled only as of December 2003. Actual counts are expected to be higher. Children counted as receiving early intervention based on having an IFSP.
New Mexico	27,320	25,134	34	26	13	50.00	38.24	
New York	252,150	232,530	74	67	41	61.19	55.41	
Ohio	147,832	58,976	122	122	34	27.87	27.87	
Oklahoma	50,874	48,928	58	44	40	90.91	68.97	This data may be incomplete because the Database is underdevelopment
Pennsylvania	142,377	139,503	122	107	69	64.49	56.56	
Rhode Island	13,823	13,761	19	17	17	100.00	89.47	1 child whose data could not be listed in the PCHL tables bec diagnoses did not fit in the categories (bilateral Auditory Neuropathy)
South Dakota	11,503	10,395	2	2	2	100.00	100.00	Not all of the data is being entered. A large birth facility has Dr. that have no standing order to do screening prior to hosp discharge. Screening is to be done at their office for the infant's 2 week well baby check. Of those not screened, quite a few choose another Dr. & this contributes largely to loss to follow-up.
Tennessee*	84,015	81,494	8.00	8	8	100.00	100.00	Did not begin collecting data until July 03
Utah	50,821	49,726	54	46	19	41.30	35.19	This includes only those infants enrolled with public early intervention/Parent Infant Program. Utah does not require private early intervention services to report enrollment data.
Virginia	98,991	94,747	65	41	26	63.41	40.00	This represents an underestimate
Vermont	6,330	5,919	3	3	0	0.00	0.00	
West Virginia	21,481	21,103	40	24	18	75.00	45.00	
Wyoming	6,137	6,036	16	5	5	100.00	31.25	
Guam	3,296	2,673	1	1	1	100.00	100.00	
Totals:	2,510,759	2,116,909	2,350	1,579	1,064	67.38%	45.28%	

*: Partial year data for Tennessee
