

<b>EMERGING AND RE-EMERGING INFECTIOUS DISEASES</b>		
<b>Wisconsin Model Academic Standards for Science – Grade 12</b>		
<b>Activity</b>	<b>Standard</b>	<b>Description</b>
3, 4, 5	A.12.1	Apply the underlying themes of science to develop defensible visions of the future.
2, 3, 4, 5	A.12.2	Show how conflicting assumptions about science themes lead to different opinions and decisions about evolution, health, population, longevity, education, and use of resources, and show how these opinions and decisions have diverse effects on an individual, a community, and a country, both now and in the future.
2, 3, 4, 5	A.12.5	Show how the ideas and themes of science can be used to make real-life decisions about careers, work places, life-styles, and use of resources.
1, 2, 3, 4	A.12.6	Identify and, using evidence learned or discovered, replace inaccurate personal models and explanations of science-related events.
All activities	A.12.7	Re-examine the evidence and reasoning that led to conclusions drawn from investigations, using the science themes.
1, 2, 3, 4	B.12.3	Relate the major themes of science to human progress in understanding science and the world.
1, 2, 3, 4	B.12.4	Show how basic research and applied research contribute to new discoveries, inventions, and applications.
1, 2, 3, 4	C.12.1	When studying science content, ask questions suggested by current social issues, scientific literature, and observations of phenomena, build hypotheses that might answer some of these questions, design possible investigations, and describe results that might emerge from such investigations.
2, 3, 4	C.12.2	Identify issues from an area of science study, write questions that could be investigated, review previous research on these questions, and design and conduct responsible and safe investigations to help answer the questions.
1, 2, 3, 4	C.12.3	Evaluate the data collected during an investigation, critique the data-collection procedures and results, and suggest ways to make any needed improvements.
2, 3, 4	C.12.5	Use the explanations and models found in the earth and space, life and environmental, and physical sciences to develop likely explanations for the results of their investigations.
2, 3, 4	C.12.6	Present the results of investigations to groups concerned with the issues, explaining the meaning and implications of the results, and answering questions in terms the audience can understand.
3	F.12.3	Explain current scientific ideas and information about the molecular and genetic basis of heredity.
3	F.12.4	State the relationships between functions of the cell and functions of the organism as related to genetics and

WISCONSIN ALIGNMENT FOR NIH SUPPLEMENT EMERGING AND RE-EMERGING INFECTIOUS DISEASES

		heredity.
3	F.12.5	Understand the theory of evolution, natural selection, and biological classification.
3	F.12.6	Using concepts of evolution and heredity, account for changes in species and the diversity of species, include the influence of these changes on science, e.g. breeding of plants or animals.
3	G.12.1	Identify personal interests in science and technology, implications that these interests might have for future education, and decisions to be considered.
3, 4	G.12.2	Design, build, evaluate, and revise models and explanations related to the earth and space, life and environmental, and physical sciences.
3, 4, 5	G.12.3	Analyze the costs, benefits, or problems resulting from a scientific or technological innovation, including implications for the individual and the community.
3, 4	G.12.4	Show how a major scientific or technological change has had an impact on work, leisure, or the home.
1, 3, 4, 5	G.12.5	Choose a specific problem in our society, identify alternative scientific or technological solutions to that problem and argue it merits.
3, 4, 5	H.12.3	Show how policy decisions in science depend on social values, ethics, beliefs, and time frames as well as considerations of science and technology.
3, 4, 5	H.12.4	Advocate a solution or combination of solutions to a problem in science or technology.
All activities	H.12.6	Evaluate data and sources of information when using scientific information to make decisions.
All activities	H.12.7	When making decisions, construct a plan that includes the use of current scientific knowledge and scientific reasoning.

**Wisconsin Model Academic Standards for Mathematics – Grade 12**

Activity	Standard	Description
1, 2, 3, 4	A.12.1	Use reason and logic to evaluate information, perceive patterns, identify relationships, formulate questions, pose problems, and make and test conjectures, and pursue ideas that lead to further understanding and deeper insight.
1, 2, 3, 4	A.12.3	Analyze non-routine problems and arrive at solutions by various means, including models and simulations, often starting with provisional conjectures and progressing, directly or indirectly, to a solution, justification, or counter-example.
3, 4	A.12.5	Organize work and present mathematical procedures and results clearly, systematically, succinctly, and correctly.

WISCONSIN ALIGNMENT FOR NIH SUPPLEMENT EMERGING AND RE-EMERGING INFECTIOUS DISEASES

3, 4	<b>B.12.2</b>	Compare real numbers using order relations ( $>$ , $<$ ) and transitivity, ordinal scales including logarithmic (e.g., Richter, pH rating), arithmetic differences, ratios, proportions, percents, or rates of change.
3, 4	<b>B.12.3</b>	Perform and explain operations on real numbers (add, subtract, multiply, divide, raise to a power, extract a root, take opposites and reciprocals, determine absolute value).
3, 4	<b>B.12.5</b>	Create and critically evaluate numerical arguments presented in a variety of classroom and real-world situations (e.g., political, economic, scientific, social).
3, 4	<b>D.12.2</b>	Select and use tools with appropriate degree of precision to determine measurements directly within specified degrees of accuracy and error (tolerance).
4	<b>D.12.3</b>	Determine measurements indirectly, using estimation, proportional reasoning, including those involving squaring and cubing (e.g., reasoning that areas of circles are proportional to the squares of their radii), techniques of algebra, geometry, and right triangle trigonometry, formulas in applications (e.g., for compound interest, distance formula), geometric formulas to derive lengths, areas, or volumes of shapes and objects (e.g., cones, parallelograms, cylinders, pyramids), geometric relationships and properties of circles and polygons (e.g., size of central angles, area of a sector of a circle), conversion constants to relate measures in one system to another (e.g., meters to feet, dollars to Deutschmarks).
3, 4	<b>E.12.1</b>	Work with data in the context of real-world situations by formulating hypotheses that lead to collection and analysis of one- and two-variable data, designing a data collection plan that considers random sampling, control groups, the role of assumptions, etc., conducting an investigation based on that plan, and using technology to generate displays, summary statistics, and presentations.
3, 4	<b>F.12.4</b>	Model and solve a variety of mathematical and real-world problems by using algebraic expressions, equations, and inequalities.

**Wisconsin Model Academic Standards for English Language Arts – Grade 12**

Activity	Standard	Description
1, 2, 3, 4	<b>A.12.1</b>	Use effective reading strategies to achieve their purposes in reading.
1, 2, 3, 4	<b>A.12.4</b>	Students will read to acquire information.
1, 2, 3, 4	<b>B.12.1</b>	Create or produce writing to communicate with different audiences for a variety of purposes.
All activities	<b>B.12.3</b>	Understand the function of various forms, structures, and punctuation marks of standard American English and use them appropriately in oral and written communications.
2, 3, 4, 5	<b>C.12.1</b>	Prepare and deliver formal oral presentations appropriate to specific purposes and audiences.
All activities	<b>C.12.2</b>	Listen to, discuss, and comprehend oral communications.

WISCONSIN ALIGNMENT FOR NIH SUPPLEMENT EMERGING AND RE-EMERGING INFECTIOUS DISEASES

All activities	C.12.3	Participate effectively in discussion.
All activities	D.12.1	Develop their vocabulary and ability to use words, phrases, idioms, and various grammatical structures as a means of improving communication.
2, 3, 4	E.12.1	Use computers to acquire, organize, analyze, and communicate information.
2, 3, 4	F.12.1	Conduct research and inquiry on self-selected or assigned topics, issues, or problems and use an appropriate form to communicate their findings.
<b>Wisconsin Model Academic Standards for Health Education – Grade 12</b>		
<b>Activity</b>	<b>Standard</b>	<b>Description</b>
3, 4	A.12.3	Describe how to enhance health and reduce risks throughout life.
All activities	A.12.4	Analyze how the prevention and control of health problems are influenced by education, research, and advances in all health-care fields.
3, 4	A.12.5	Explain the impact of personal health behaviors on the functioning of body systems.
3, 4	A.12.6	Analyze how the family, peers, and community influence the health of individuals.
2, 3, 4	A.12.7	Analyze how behavior can impact health maintenance and disease and injury prevention.
3, 4	B.12.1	Analyze the role of individual responsibility for enhancing health.
3, 4	B.12.3	Analyze the short-term and long-term consequences of various behaviors.
4, 5	B.12.4	Demonstrate strategies to improve and maintain personal, family, and community health.
3, 4, 5	C.12.1	Demonstrate the ability to use various decision-making strategies related to health needs and risks.
3, 4, 5	C.12.2	Apply knowledge of individual, family, and community influences to decision-making process.
3, 4, 5	C.12.3	Predict immediate and long-term impacts of health decisions on the individual, family, and community.
2, 3, 4	D.12.1	Identify valid health information, products, and services.
3, 4, 5	E.12.3	Evaluate the impact of technology on personal, family, and community health.
2, 3, 4, 5	F.12.1	Demonstrate skills to communicate effectively with family, peers, and others.
2, 3, 4, 5	G.12.1	Evaluate the effectiveness of various methods to accurately express health information and ideas.
2, 3, 4, 5	G.12.2	Convey valid information and express opinions about health issues.
3, 4	G.12.4	Demonstrate the ability to influence and support others in making positive health choices.
3, 4, 5	G.12.6	Demonstrate the ability to adapt health messages and communication techniques to the characteristics of a particular audience.
