

**“ANNUAL” DATA FORM
WOOD DUCK BOX INFORMATION**

(Recommended box check period is
September through January of each year.)

Cooperator name: _____ Year _____

Address: _____

- Total Boxes Up _____
- Total Usable Boxes _____ (Boxes not in disrepair and Boxes not used by other species)
- Usable Boxes Occupied by wood ducks _____
- Boxes used more than once by wood ducks _____ (if known)
- No. of Boxes with Dump Nest (> 15 eggs) _____
- Number of Successful boxes per nesting attempt _____ (Successful box=hatched 1egg or more)
- Use by Other Ducks _____ (Hooded Mergansers, etc., and an estimate of successful hatches.)
- Date(s) Checked _____ (Specific date(s) of box inspections.)
- Use by Other Wildlife _____ (Racoons, squirrels, bees, etc.)
- Estimated Total Wood Ducks Hatched * _____
- Estimated Wood Duck Broods Produced _____
- Estimated Young Wood Ducks Surviving to Flight ** _____
- Plans for Next Year (Indicate Number)

More Boxes _____	Moved Boxes _____
Fewer Boxes _____	No Change _____

Remarks: (e.g., loss due to flooding; names of personnel checking boxes; predation notes; etc.):

* Unless you actually count egg shells/membranes, multiply successful boxes by 10.

** If estimated survival rate is other than 50% (+ or -) please explain in the Remarks section. [For example, if you had 50 successful boxes, and did not count egg shells/membranes, then 50 x 10 = 500 ducklings, and then 500 x .50 = 250 ducks to flight.]

Fill out completely and mail to USFWS, PO Box 210, Columbia, NC 27925.
