Notes: For metropolitan statistical area data, a firm is defined as an aggregation of all establishments owned by a parent company within an MSA. Establishments are nonfarm locations with active payroll in any quarter. Employment is measured in March; thus, some firms will have no employment and some annual payroll.

Notes: For metropolitan statistical area data, a firm is defined as an aggregation of all establishments owned by a parent company within an MSA. Establishments are nonfarm locations with active payroll in any quarter. Employment is measured in March; thus, some firms will have no employment and some annual payroll.

Notes: For metropolitan statistical area data, a firm is defined as an aggregation of all establishments owned by a parent company within an MSA. Establishments are nonfarm locations with active payroll in any quarter. Employment is measured in March; thus, some firms will have no employment and some annual payroll.

Notes: For metropolitan statistical area data, a firm is defined as an aggregation of all establishments owned by a parent company within an MSA. Establishments are nonfarm locations with active payroll in any quarter. Employment is measured in March; thus, some firms will have no employment and some annual payroll.

Notes: For metropolitan statistical area data, a firm is defined as an aggregation of all establishments owned by a parent company within an MSA. Establishments are nonfarm locations with active payroll in any quarter. Employment is measured in March; thus, some firms will have no employment and some annual payroll.

Notes: For metropolitan statistical area data, a firm is defined as an aggregation of all establishments owned by a parent company within an MSA. Establishments are nonfarm locations with active payroll in any quarter. Employment is measured in March; thus, some firms will have no employment and some annual payroll.

Notes: For metropolitan statistical area data, a firm is defined as an aggregation of all establishments owned by a parent company within an MSA. Establishments are locations with active payroll in any quarter. Employment is measured in March; thus, some firms will have no employment and some annual payroll.

Notes: For metropolitan statistical area data, a firm is defined as an aggregation of all establishments owned by a parent company within an MSA. Establishments are locations with active payroll in any quarter. Employment is measured in March; thus, some firms will have no employment and some annual payroll.
