¹ Comprises 5.2 billion barrels of conventional crude oil and condensate and 174.0 billion barrels of bitumen in Alberta's oil sands.

NA=Not available. NR=Not separately reported. (s)=Less than 0.05 billion barrels.

Notes: • All reserve figures except those for Eurasia and natural gas reserves in Canada are proved reserves recoverable with present technology and prices at the time of estimation. Eurasia and Canadian natural gas figures include proved and some probable reserves. • Totals may not equal sum of components due to independent rounding.

Web Page: For related information, see http://www.eia.doe.gov/international/oilreserves.html.

Source: Energy Information Administration, "International Energy Annual 2006" (June-July 2008), Table 8.1.

² Includes 20.7 billion barrels of oil sands and bitumen. Excludes another 153 billion barrels claimed by Canadian authorities.

³ Includes data for those countries not separately reported.

⁴ Excludes countries that were part of the former U.S.S.R. See "U.S.S.R." in Glossary.

⁵ Includes only countries that were part of the former U.S.S.R. See "U.S.S.R." in Glossary.

⁶ Data for Kuwait and Saudi Arabia include one-half of the reserves in the Neutral Zone between Kuwait and Saudi Arabia.
