INTRODUCTION

The Standard Subject Identification Codes contained in this manual are designed to meet the needs of the entire Department of the Navy for a single, standard subject scheme to be used for classifying (numbering), arranging and filing, and referencing various types of Navy and Marine Corps documents by subject. It provides:

- a. A convenient numerical classification outline consisting of fourteen major numerical series broken into primary, secondary, and tertiary subjects, as needed, to provide numbers for subject matters covered by Navy documents.
- b. Alphabetical-numerical codes for commonly used names and titles.
- c. An alphabetical (topical) guide to assist activities and offices in locating numerical subject identification codes.

Numerical Subject Identification Codes

Major Subject Groups

Each of the fourteen major subject groups in the standard numerical subject identification table is designated by a four- or five-digit numeric code. These major subject groups are:

- 1000 Series MILITARY PERSONNEL. Includes subjects relating solely to the administration of military personnel. (Civilian personnel subjects are included in the 12000 series. General personnel subjects relating to both civilian and military personnel are included in the 5000 series.)
- 2000 Series TELECOMMUNICATIONS. This series includes subjects relating to general communication matters and to communication systems and equipment.
- 3000 Series OPERATIONS AND READINESS. Includes subjects relating to such matters as operational plans, fleet operations, operational training and readiness, warfare techniques, operational intelligence, and research and development.

28 DEC 1977

- 4000 Series LOGISTICS. Includes subjects relating to the logistical support of the Navy and Marine Corps, including procurement, supply control, property redistribution and disposal, travel and transportation, maintenance, construction and conversion, production and mobilization planning, and foreign military assistance.
- 5000 Series GENERAL ADMINISTRATION AND MANAGEMENT. Includes subjects relating to the administration, organization, and management of the Department of the Navy, including general personnel matters (concerning both civilian and military personnel), security, external relations, law and legal matters, office services, and publication and printing matters.
- 6000 Series MEDICINE AND DENTISTRY. Includes subjects relating to medical matters, such as physical fitness, general medicine, special or preventive medicine, dentistry, medical equipment and supplies.
- 7000 Series FINANCIAL MANAGEMENT. Includes subjects relating to the financial administration of the Department of the Navy, including budgeting, disbursing, accounting, auditing, industrial and other special financing matters, and statistical reporting.
- 8000 Series ORDNANCE MATERIAL. Includes subjects relating to all types of ordnance material and weapons, including ammunition and explosives, guided missiles of all types, underwater ordnance materials, and miscellaneous ordnance equipment.
- 9000 Series SHIPS DESIGN AND MATERIAL. Includes subjects relating to such matters as the design, characteristics, and readiness of ships, and to ships material and equipment.
- 10000 Series GENERAL MATERIAL. Includes subjects relating to general categories of materials not included in the specialized material groups. It includes photographic

equipment and accessories, general machinery and tools, personnel (materials), and miscellaneous categories.

11000 Series FACILITIES AND ACTIVITIES ASHORE.
Includes subjects relating to ashore structures and facilities, fleet facilities, transportation facilities, utilities and services, and other similar subjects.

12000 Series CIVILIAN PERSONNEL. Includes subjects relating solely to the administration of civilian personnel. (Military personnel subjects are included in the 1000 series. General personnel subjects relating to both civilian and military personnel are included in the 5000 series.)

13000 Series METEOROLOGICAL AND ASTRONAUTICAL MATERIAL.
Includes subjects relating to aeronautical and astronautical material, including parts, accessories, and instruments; special devices; armament; aerological equipment, weapons systems, types of aircraft; and astronautic vehicles.

16000 Series COAST GUARD MISSIONS.
Includes subjects relating solely to administration and mission of the Coast Guard.

Primary, Secondary, and Tertiary Numerical Subject Groups

The fourteen major numerical subject groups are subdivided into primary, secondary, and sometimes tertiary breakdowns. Primary subjects are designated by the last three digits (the hundred group) of the code number. For example, the major subject of General Administration and Management, coded 5000, is subdivided into primary groups as follows:

- 5000 GENERAL ADMINISTRATION AND MANAGEMENT
 - 5200 Management Programs and Techniques
 - 5300 Manpower/Personnel
 - 5400 Organization, Functions, and Status

28 DEC 1977

Primary subjects are subdivided into secondary subjects by the last two digits of the numeric code. Tertiary breaks are indicated by the final digit. For example:

5200 Management Programs and Techniques

5210 Records Management

5211 Filing, Maintenance, Protection, and
 Retrieval Systems

Some of the smaller subject groups in the table are not subdivided below the primary breakdown. Other larger subject groups are divided into many secondary and tertiary subjects, the extent depending upon the scope and complexity of the major subject.

28 DEC 1977

Name-Title Subject Codes

Name-title symbols (alphabetic or alphabetic-numeric codes) are provided for names and titles frequently used by the Department of the Navy in arranging and filing material by name or organizational designation. Included are symbols for fleet organizations, the United States Government, foreign governments, commercial enterprises and firms, and types of naval activities.

The first letter of the name or title code designates the larger organizational group, and the second or third letters a further breakdown of the larger group. For example, "EE" designates the Executive Branch (less Department of Defense).

An Arabic numeral added to the letter symbol further subdivides the code. For example:

FF FLEETS, FORCES, TYPES, AREAS AND SEA FRONTIERS

FF1 United States Fleet

FF7 Fleet Air Commands
