INVESTOR IN PEOPLE

Advances in epidemiology and control of rusts

at Science and Advice for Scottish Agriculture, (SASA)
Edinburgh, UK

22-23 April 2009

(BASIS Points will be applied for)

It is intended that this conference will review the latest knowledge regarding all aspects of rust pathogens biology and control. The main themes of the conference will be breeding for robust host resistance, population dynamics, environmental interactions and disease control. It is expected that rust pathogens of cereals, broad-leaved and ornamental species will be represented.

Presentations and posters from this Conference will be produced together in a volume of the *Aspects of Applied Biology* series. Copies will be available to delegates at the Conference. Abstracts of papers can be submitted online via our web site at <http://www.aab.org.uk>. Click on ABSTRACTS in the left-hand column, then the title of Conference. Once you have registered as a user you can upload your details. Please indicate if your offer is for a poster or a platform presentation at the bottom of the Abstract.

**DEADLINE FOR CALL FOR CONTRIBUTIONS
IS 30 SEPTEMBER 2008**
