The information, as provided, is for informational purposes only and should not be interpreted as complete, nor should it be considered legally binding. Coordination with both your state and the destination state plant regulatory agency listed above may be necessary to stay up-to-date on revised requirements.

DEFINITION OF NURSERY STOCK

"Nursery Stock" means any plant grown, propagated or collected for planting, or propagated for landscaping or decorative purposes; but does not include field, vegetable or flower seeds.

GENERAL SHIPPING REQUIREMENTS

All nursery and florist stock entering the state of New Mexico shall have affixed to each package an official copy of the certificate of inspection signed by the proper official of the shipping state. Only sound and healthy nursery stock, stored, offered or displayed under conditions which will maintain its vigor shall be offered for sale. Nursery stock must be labeled either as to common or botanical name.
