Attached was submitted last Fri., apparently on a "rule" basis, in the way of amplified justification for 355 HRP pos., both CO+RO, rather than the 276 "authorized" by H's Fwd. Plan.

I had a quick glance at it late Fri. afternoon in rough draft; & Gene gave me a copy of the final this morning. (The 7474 RMP portion, pp. 5+6, I drafted hurriedly late Fri. Thus, I have to bear the blame for both its inadequacies & failing to "clear" it with you.) I pass it along since I'm not at all certain you've been given a copy. The whole horrendous communications "gap" again possibly. Would like this copy back.
