CONFIDENTIALITY OF MEETINGS

Regulations of the Public Health Service provide that discussions of advisory groups shall be held confidential except as disclosure is authorized by the Administrator, HSMHA.

## CONFLICT OF INTEREST

The following extract from the Department of Health, Education and Welfare General Administration Manual is called to the attention of Public Health Service Consultants:

"Advisers and consultants serving as members of public advisory committees should not participate in situations in which a violation of conflict of interest laws and regulations is likely to occur. Heads of Bureaus and Divisions should establish procedures and controls to insure that a committee member is disqualified from performing duties or rendering advice which will have a direct and predictable effect on the interests of an organization or institution with which he is associated as an employee or consultant or in which he has a financial interest. In particular, committee members should not participate in the evaluation of contract or grant proposals which will directly affect the interests of such organization or institution."
