Russell B. Roth, M.D.
225 West 25th Street, Suite 302
Erie, Pennsylvania 16502

Dear Russ:

This is in response to your letter regarding the program put on by Jack Ingall on the RDP network in his area. I fully understand your objections particularly with respect to the network to present only one view of a highly controversial subject. Beyond that, it certainly seems appropriate to me that RDP avoid political issues and confine its efforts to improving medical care. Perhaps we can reconsider political issues when we've solved all of the health issues.

I will make sure that there is a place on the agenda at the next meeting of the Council for you to raise the subject and obtain Council action.

Sincerely yours,

Harold Hargulies, M.D.
