

E014B3

Brennan needs advice, not
direction.

The next 2 items ^{on the agenda} are assigned to me, but I have asked appropriate members of my staff to make the presentations because they have the daily responsibility for administering them.

With regard to 3d part, Reimb a new policy is being ^{and} proposed ^{and} I think you will find ^{most} interesting. ~~As you listen to Mr. Roger Miller's presentation you may detect your~~
~~the one of the main reasons for its~~
~~prop with to assist existing 3d party~~
~~sources in becoming more realistic~~
~~or realistic (18 & 19). While the policy~~
is only in proposed state, we are being requested to implement those portions that we can accommodate in our structure. Mr. Miller will touch on this other elements in his brief presentation - Roger

We thought it appropriate at this juncture to give you a brief resume of the Mgmt. Survey, activity of R.M.P.S. Subsequent to my joining the GMB of R.M.P.S. in late 1970, Sr. Management arranged for the survey function to be ~~developed~~ assigned to the Branch. It has now become ~~an~~ important element of the total review process, and the completion of the Survey has changed. It has gained recognition in the Admin & Sec. Offices ~~because~~ ^{and} it is used by the Dept. Audit Agency, ^{also by} the staff in O&AP in ~~its~~ ^{its} ~~concern~~ ~~relating~~ ~~to~~ improving the quality of grantee mgmt. Mr. Don Simmonds and I are both graduates of the VA's internal audit program and ~~consequently~~ speak the same language. He will present a brief interesting story of how we got to where we are today in surveying the mgmt. activities of our grantees and R.M.P.s. - Don
