MAY/JUNE 1974 REVIEWRequest: 2,077,311Committee Recommendation: \$2,077,311Overall assessment by individual reviewers: Superior

Critique:

Washington/Alaska is a superior, well-managed program. The RAG is forceful and active in determining program policy and direction based on the needs of the area. The technical review committee structure appears well-designed and active.

Staff was reduced from 52 to 35 during phase-out. However, recruitment of new staff is in process. Staff direction is superior. There appears to be close collaboration with the CHP agencies in the area. The proposed program, as well as current activities, represent a good balance both programmatically and geographically.

The Committee recommends that this application be approved at the requested level.

JULY/AUGUST REVIEWEstimated request as of May 1974: \$500,000NATIONAL ADVISORY COUNCIL - June 13-14, 1974

Council concurred with Committee recommendation.
