

BOTANICAL SOCIETY OF AMERICA

2009 BSA Membership Form

Mission: *The Botanical Society of America exists to promote botany, the field of basic science dealing with the study and inquiry into the form, function, development, diversity, reproduction, evolution, and uses of plants and their interactions within the biosphere.*

The objectives of the Society are to: *sustain and provide improved formal and informal education about plants; encourage basic plant research; provide expertise, direction, and position statements concerning plants and ecosystems; and foster communication within the professional botanical community, and between botanists and the rest of humankind through publications, meetings, and committees.*

Dear New or Renewing BSA Member:

We are pleased to provide you with the 2009 Membership form. Before you check the boxes below, we invite you to consider doing so online at www.botany.org under the membership tab. Our online system is YourPay-certified and probably safer than sending a check or your credit card information through the mail. Joining online is also faster and less costly all around. We thank you for considering the matter and look forward to your membership support - any way it is delivered!
