

## Grant Opportunities Available for Addressing Tamarisk Issues

The following tables list possible grant opportunities available for addressing tamarisk issues and riparian restoration. The tables are divided into Non-profit Foundations, Corporate, and Other Funding Sources; Federal Grants; and Congress Chartered Foundations. State directed funding sources will be added at a later date.

This list of grant opportunities has been compiled as a tool to be used as a starting point for the reader's grant funding research. This list is not exhaustive and is designed only to provide an overview of available grants. For more detailed information, the reader is encouraged to utilize the resources listed below, visit the funding sources website, or contact the funding source directly.

- ✓ Environmental Grantmaking Foundations [www.environmentalgrants.com](http://www.environmentalgrants.com)
- ✓ Center for Invasive Plant Management [www.weedcenter.org](http://www.weedcenter.org)
- ✓ Federal Government [www.grants.gov](http://www.grants.gov)

The activities funded by the grantors have been identified as Advocacy, Education, Policy, Direct Action, Research, and Start Up. The following categories are defined to aid the reader in selecting appropriate grants. Individual grantors may define categories somewhat differently.

**Advocacy** (Adv) includes activities associated with communicating about tamarisk issues such as organizing community meetings or distributing public education materials.

**Education** (Edu) involves direct education programs to a targeted group.

**Policy** (Pol) is defined as activities related to influencing and/or developing environmental policies.

**Direct Action** (Dir) includes activities such as volunteerism, control, revegetation, and other direct implementations.

**Research** (Res) is defined as planning and implementing basic scientific research.

**Start Up** (SU) is defined as funds for a new project ("seed money") or funds for a new organization.

Additionally, geography is included to indicate the physical locations the grantor emphasizes.

Grant information is current as of June 2007. Financial information is generally from 2004 or 2005. Blank spaces indicate that no information was available. **Grants and grantors are subject to change at anytime for a variety of reasons. It is critical that the funding sources are contacted for the most current information before any type of submission.**
