

TABLE OF CONTENTS

This Final SEIS follows the same format as the 1999 Final IFR/EIS. For the Final SEIS, those sections that have been updated (^{revised}), or where new sections have been added (^{new}) are clearly marked. Also, a CD-ROM of the 1999 Final IFR/EIS is provided with the Final SEIS.

*COVER SHEET

*EXECUTIVE SUMMARY

*1.	^{revised} INTRODUCTION	1-1
1.1.	^{revised} Purpose and Need	1-9
1.1.1.	^{new} Purpose and Need for the Additional Ecosystem Restoration Features	1-9
1.2.	^{revised} Study Authority	1-9
1.3.	^{revised} Study Area	1-9
1.3.1.	^{new} Action Area	1-9
1.4.	^{revised} Scope of Study	1-10
1.4.1.	^{new} Ecosystem Restoration Features Developed During Consultation	1-10
1.5.	^{revised} Study Participants and Coordination	1-13
1.6.	Previous Studies	1-13
*2.	STUDY AREA DESCRIPTION	2-1
2.1.	^{revised} Existing Project Description	2-1
2.2.	Historic Channel Development	2-1
2.3.	^{revised} Navigation Practices	2-1
2.4.	^{revised} Channel Maintenance Practices	2-1
2.5.	^{revised} Summary of Environmental Conditions	2-1
3.	NEEDS AND OPPORTUNITIES	3-1
3.1.	^{revised} Introduction	3-1
3.2.	^{revised} Commodity Forecast	3-2
3.2.1.	^{revised} Containers	3-2
3.2.2.	^{revised} Wheat	3-3
3.2.3.	^{revised} Corn	3-5
3.2.4.	^{revised} Barley	3-5
3.2.5.	Alumina	3-6
3.2.6.	^{new} Soybeans	3-6
3.3.	^{revised} Fleet Forecast	3-7
3.3.1.	^{revised} Container Vessel Fleet	3-7
3.3.2.	^{revised} Bulk Carrier Fleet	3-8
3.3.2.1.	^{revised} Wheat	3-10
3.3.2.2.	^{revised} Corn	3-12
3.3.2.3.	^{revised} Barley	3-13
3.3.2.4.	^{revised} Alumina	3-13
3.3.2.5.	^{new} Soybeans	3-14
3.4.	^{revised} Future Port Development	3-14

NOTE: * Indicates information required for National Environmental Policy Act compliance.

TABLE OF CONTENTS (continued)

*4. ALTERNATIVES	4-1
4.1. Formulation and Screening of Alternatives	4-1
4.2. No Action Alternative	4-1
4.3. ^{revised} Non-Structural Alternative	4-1
4.4. ^{revised} Structural Alternatives	4-1
4.4.1. Regional Port Alternatives	4-1
4.4.2. Channel Deepening Alternatives	4-2
4.4.3. ^{revised} Disposal Alternatives	4-2
4.4.3.10. ^{new} Disposal Plan Modifications Following Consultation	4-2
4.5. ^{revised} Comparison of Alternatives	4-14
4.5.1. ^{revised} Environmental Comparison	4-15
4.5.1.1. ^{revised} Physical Impacts	4-15
4.5.1.2. ^{revised} Biological Impacts	4-15
4.5.1.3. ^{revised} Socio-Economic Impacts	4-21
4.5.2. ^{revised} Economic Comparison	4-22
4.6. ^{revised} Plan Selection	4-23
4.6.1. Turning Basins	4-24
4.6.2. Anchorages	4-24
4.6.3. ^{revised} Berthing Areas	4-24
4.7. ^{revised} Selected Plan	4-24
4.7.1. ^{revised} Channel Optimization Measures	4-25
4.8. ^{revised} Ecosystem Restoration Plan	4-25
4.8.1. ^{revised} Shillapoo Lake	4-25
4.8.2. ^{revised} Tide Gate Retrofits for Salmonid Passage	4-27
4.8.3. Improved Embayment Circulation	4-27
4.8.4. ^{revised} Restore Shallow Water Habitat	4-27
4.8.5. ^{revised} Summary	4-28
4.8.6. ^{new} Additional Ecosystem Restoration Features	4-31
4.8.6.1. ^{new} Lois Island Embayment Habitat Restoration	4-32
4.8.6.2. ^{new} Purple Loosestrife Control Program	4-34
4.8.6.3. ^{new} Miller-Pillar Habitat Restoration	4-35
4.8.6.4. ^{new} Tenasillahe Island Phased Restoration	4-36
4.8.6.5. ^{new} Bachelor Slough Restoration	4-43
4.8.7. ^{new} Cost Effectiveness–Incremental Cost Analysis for the Ecosystem Restoration Features	4-46
4.9. ^{new} Ecosystem Evaluation Actions	4-51
*5. AFFECTED ENVIRONMENT	5-1
5.1. ^{revised} Physical Resources	5-1
5.2. ^{revised} Biological Resources	5-1
5.3. ^{revised} Threatened and Endangered Species	5-1
5.3.1. ^{revised} Aquatic Species	5-1
5.3.2. ^{revised} Wildlife Species	5-1

NOTE: * Indicates information required for National Environmental Policy Act compliance.

TABLE OF CONTENTS (continued)

5.4. Socio-Economic Resources.....	5-1
5.4.1. Port-Related Economy	5-1
5.4.2. ^{revised} Land Use.....	5-1
5.4.3. Aesthetics	5-1
5.4.4. Recreation.....	5-1
5.4.5. Cultural Resources	5-1
*6. ENVIRONMENTAL CONSEQUENCES.....	6-1
6.1. Introduction	6-1
6.1.1. ^{new} Introduction for the Final SEIS.....	6-1
6.1.1.1. ^{new} Ecosystem Model.....	6-1
6.1.1.2. ^{new} Other Sources of New Information Since the Final IFR/EIS	6-5
6.2. ^{revised} Physical Impacts	6-6
6.2.1. No Action Alternative	6-6
6.2.2. ^{revised} 43-foot Channel Deepening Alternative.....	6-6
6.2.2.1. ^{revised} Riverbed and Sedimentation.....	6-6
6.2.2.2. ^{revised} Water Surface Elevations	6-10
6.2.2.3. ^{revised} Salinity.....	6-11
6.2.2.4. ^{new} Accretion/Erosion	6-12
6.2.3. ^{revised} Proposed Disposal Alternative	6-14
6.2.3.1. ^{revised} Upland Disposal	6-14
6.2.3.2. ^{revised} In-Water Disposal.....	6-15
6.2.3.3. ^{new} Ocean Disposal	6-15
6.2.4. ^{new} Ecosystem Restoration Features	6-16
6.3. ^{revised} Water Quality Impacts.....	6-17
6.4. Sediment Quality Impacts	6-18
6.4.1. ^{revised} Navigation Channel	6-18
6.4.2. Ocean Disposal.....	6-19
6.4.3. ^{new} Ecosystem Restoration Features	6-19
6.5. Hazardous, Toxic, and Radiological Waste Impacts.....	6-19
6.5.1. No Action Alternative	6-19
6.5.2. ^{revised} 43-foot Channel Deepening Alternative.....	6-19
6.5.3. ^{revised} Least Cost and Proposed (Sponsors’) Alternatives	6-20
6.5.3.1. ^{new} Ecosystem Restoration Features	6-20
6.6. Biological Impacts.....	6-20
6.6.1. ^{revised} Aquatic Resources	6-20
6.6.1.1. ^{revised} No Action Alternative	6-20
6.6.1.2. ^{revised} 43-foot Channel Deepening Alternative.....	6-27
6.6.1.3. ^{new} Ecosystem Restoration Features	6-29
6.6.2. ^{revised} Wildlife Resources	6-30
6.6.2.1. ^{revised} No Action Alternative	6-30
6.6.2.2. ^{revised} 43-foot Channel Deepening Alternative.....	6-31

NOTE: * Indicates information required for National Environmental Policy Act compliance.

TABLE OF CONTENTS (continued)

6.6.2.3.	^{revised} Least Cost Disposal Alternative	6-31
6.6.2.4.	^{revised} Proposed (Sponsors' Preferred) Disposal Alternative	6-31
6.6.2.5.	^{new} Ecosystem Restoration Features	6-32
6.7.	Threatened and Endangered Species	6-34
6.7.1.	^{revised} Aquatic Species	6-34
6.7.1.1.	^{new} ESA Consultation Results for the 43-foot Channel Deepening Alternative	6-34
6.7.1.2.	^{new} ESA Consultation Process Results for the Ecosystem Restoration Features	6-54
6.7.1.3.	^{new} Biological Opinions for the Final SEIS	6-55
6.7.2.	^{revised} Wildlife Species	6-57
6.8.	Socio-Economic Resources	6-61
6.8.1.	^{revised} Economic Impacts	6-61
6.8.2.	^{revised} Land Use	6-62
6.9.	^{revised} Secondary Impacts	6-63
6.10.	^{revised} Mitigation	6-63
6.10.2.2.	^{revised} Proposed (Sponsor's Preferred) Disposal Alternative	6-64
6.11.	^{revised} Unavoidable Adverse Impacts	6-64
6.12.	^{revised} Cumulative Impacts	6-64
6.12.1	^{new} Channel Improvement Project	6-66
6.12.2	^{new} Past, Present, and Reasonably Foreseeable Future Actions	6-69
6.12.2.1	^{new} Mouth of the Columbia River Federal Navigation Project	6-69
6.12.2.2	^{new} Willamette River Navigation Channel	6-76
6.12.2.3	^{new} Upper Columbia/Snake River Navigation Channel	6-78
6.12.2.4	^{new} Federal Columbia River Power System	6-82
6.12.2.5	^{new} Port, Industrial, Urban and Agricultural Development	6-85
6.12.2.6	^{new} Large-scale Restoration and Recovery Efforts	6-91
6.12.3	^{new} Cumulative Impact of the Channel Improvement Project When Added to All Past, Present, and Reasonably Foreseeable Future Actions	6-93
6.13.	^{revised} Relationship Between Short-term Uses of the Environment and Maintenance and Enhancement of Long-term Productivity	6-100
6.14.	Irreversible and Irrecoverable Commitments of Resources	6-100
*7.	COORDINATION AND PUBLIC INVOLVEMENT	7-1
7.1.	Required Coordination	7-1
7.2.	^{revised} Public Workshops	7-1
7.3.	^{revised} Specialized Coordination Activities	7-1
7.3.8.	^{new} ESA Consultation and SEI Workshops	7-1
7.3.9.	^{new} State and Local Coordination	7-2
7.4.	^{revised} Compliance with Environmental Laws and Executive Orders	7-3
7.4.2.	^{revised} Clean Water Act of 1977, as Amended	7-3
7.4.3.	^{revised} Coastal Zone Management Act of 1972, as Amended	7-3

NOTE: * Indicates information required for National Environmental Policy Act compliance.

TABLE OF CONTENTS (continued)

7.4.4.	^{revised} Comprehensive Environmental Response, Compensation and Liability Act	7-4
7.4.5.	^{revised} Endangered Species Act of 1973, as Amended	7-4
7.4.8.	^{revised} Fish and Wildlife Coordination Act	7-4
7.4.10.	^{revised} Marine Protection Research and Sanctuaries Act of 1972	7-4
7.4.14.	^{revised} Cultural Resources Acts	7-4
7.4.17.	^{revised} Executive Order 11988, Floodplain Management	7-5
7.4.19.	^{new} State Environmental Policy Act	7-5
7.4.20.	^{new} Magnuson-Stevens Fisheries Conservation and Management Act	7-5
7.5.	^{revised} Other Related Programs	7-6
7.5.3.	^{new} Columbia River Fish Mitigation	7-6
7.5.4.	^{new} Section 536	7-6
7.5.5.	^{new} Federal Columbia River Power System	7-7
8.	PROJECT IMPLEMENTATION	8-1
8.1.	Identification of Sponsors	8-1
8.2.	^{revised} Cost Allocation and Apportionment	8-1
8.3.	Non-Federal Cost Sharing	8-2
8.4.	Division of Responsibilities	8-2
8.5.	Sponsor's Support	8-2
8.6.	^{revised} Implementation Process	8-2
8.7.	^{new} Changes to the Real Estate Plan	8-3
8.7.1	^{new} Disposal Plan Modifications	8-4
8.7.2	^{new} Modifications to the Original Ecosystem Restoration Features	8-5
8.7.3	^{new} Modifications for the Additional Ecosystem Restoration Features	8-6
8.7.3.1.	^{new} Lois Island Embayment Habitat Restoration	8-6
8.7.3.2.	^{new} Purple Loosestrife Control Program	8-6
8.7.3.3.	^{new} Miller-Pillar Habitat Restoration	8-6
8.7.3.4.	^{new} Tenasillahe Island Phased Restoration	8-7
8.7.3.5.	^{new} Bachelor Slough Restoration	8-8
8.7.4	^{new} Ecosystem Evaluation Actions	8-9
8.7.5	^{new} Monitoring Actions Associated with Dredging and Disposal	8-9
8.8.	^{new} Royalty Fees for State-owned Dredged Material	8-10
9.	CONCLUSIONS AND RECOMMENDATIONS	9-1
9.1.	^{revised} Conclusions	9-1
9.1.1	^{new} Additional Conclusions	9-3
9.2.	^{revised} Recommendations	9-4

TABLE OF CONTENTS (continued)

LIST OF TABLES (revised or added for the Final SEIS)

Table S1-1. Columbia River Channel Improvement Project Comparison.....	1-8
Table S3-1. Export Projections for Containers	3-3
Table S3-2. Historic Wheat Exports	3-3
Table S3-3. Export Projections for Wheat (short tons).....	3-4
Table S3-4. Export Projections for Corn.....	3-5
Table S3-5. Historic Barley Exports	3-6
Table S3-6. Export Projections for Barley	3-6
Table S3-7. Export Projections for Soybeans	3-7
Table S3-8. U.S. Northwest Routes, 1990-2044 Outbound Cargo Projections	3-9
Table S3-9. 2000-2001 Wheat Vessel Movements by Design Draft Region.....	3-11
Table S3-10. 2000-2001 Corn Exports by Design Draft to Taiwan and South Korea.....	3-12
Table S3-11. 2000-2001 Barley Exports by Design Draft and Country	3-13
Table S4-1. Proposed Disposal Plan Including Beneficial Use Sites, Ecosystem Restoration and Wildlife Mitigation (Martin Island Embayment)	4-4
Table S4-2. Disposal Volumes for the Proposed Alternative from CRM 3-29	4-8
Table S4-3. Updated Summary of Environmental Impacts	4-16
Table S4-4. Average Annual Transportation Benefits, 43-foot Channel Improvement ...	4-22
Table S4-5. Current Costs and Benefits, 43-foot Channel Improvement Project.....	4-23
Table S4-6. Updated Costs, 43-foot Channel Improvement Project.....	4-23
Table S4-7. Current Estimated Costs, 43-foot Channel Improvement Project	4-25
Table S4-8. Ecosystem Restoration Features.....	4-30
Table S4-9. Average Annual Environmental Outputs, Average Annual Costs, and Average Annual Cost per Environmental Output.....	4-49
Table S4-10. Cost-effective, Least-cost Combinations - Average Annual Environmental Outputs and Average Annual Cost.....	4-49
Table S4-11. Summary of Final Incremental Cost Analysis.....	4-50
Table S6-1. Conceptual Model Pathways and Indicators for Juvenile Salmonid Production in the Lower Columbia River	6-2
Table S6-2. List of Evaluation Reports.....	6-5
Table S6-3. Study Results on Potential Sturgeon Impacts and Responses	6-23
Table S6-4. Federally Listed Salmonid ESUs/DPSs in the Action Area	6-35
Table S6-5. Risk and Uncertainty Conceptual Framework.....	6-45
Table S6-6. ESA Section 7(a)(2) Monitoring Actions for Dredging and Disposal	6-48
Table S6-7. Minimization Practices and Best Management Practices for Dredging	6-50
Table S6-8. Best Management Practices for Disposal	6-52
Table S8-1. Executive Fully Funded Cost Summary.....	8-1
Table S8-2. Proposed Project Implementation Schedule	8-3

NOTE: * Indicates information required for National Environmental Policy Act compliance.

TABLE OF CONTENTS (continued)

LIST OF FIGURES (revised or added for the Final SEIS)

Figure S1-1. Action Area for ESA Consultation.....	1-11
Figure S3-1. Dry Bulk Builds by Year and Deadweight Tonnage.....	3-10
Figure S4-1. Martin Island Embayment Wetland Mitigation Plan (revised)	4-3
Figure S4-2. Ocean Disposal Area.....	4-7
Figure S4-3. Lois Island Embayment Ecosystem Restoration Feature (191 acres)	4-10
Figure S4-4. Lois Island Embayment Bathymetry, Temporary Sump with Pipeline.....	4-11
Figure S4-5. Miller-Pillar Implementation Plan	4-13
Figure S4-6. Shillapoo Lake Embankment, Conveyance, and Control Structures	4-26
Figure S4-7. Fish Passage Improvements at Tidegates.....	4-29
Figure S4-8. Tenasillahe Island Interim Ecosystem Restoration Feature	4-37
Figure S4-9. Tenasillahe Island Long-term Ecosystem Restoration Feature.....	4-38
Figure S4-10. Phase 2–Reintroduction of Columbian White-tailed Deer to Cottonwood- Howard Islands.....	4-41
Figure S4-11. Bachelor Slough Ecosystem Restoration Feature	4-44
Figure S6-1. Conceptual Model for Juvenile Salmonids in the Lower Columbia River	6-4

VOLUME 2 – LIST OF EXHIBITS

- *Exhibit A – Correspondence (no revision necessary)
- *Exhibit B – Scoping Documentation (no revision necessary)
- *Exhibit C – Fish and Wildlife Coordination Act Report (no revision necessary)
- *Exhibit D – Section 103 Evaluation (no revision necessary)
- *Exhibit E – Section 404(b)(1) Evaluation (revised)
- *Exhibit F – Coastal Zone Management Act Consistency (revised)
- *Exhibit G – Biological Assessment for Wildlife and Plants (no revision necessary)
- *Exhibit H – ESA Consultation Documents (new) - on Corps’ website
 - 2001 Biological Assessment (fish and wildlife)
 - April 22, 2002 Amendment to Biological Assessment
 - May 2002 NOAA Fisheries Biological Opinion
 - May 2002 USFWS Biological Opinion
- *Exhibit I – Revised Essential Fish Habitat Assessment (new)
- *Exhibit J – Revised Columbia River Sediment Impacts Analysis (new)
- *Exhibit K-1 – Evaluation Report White And Green Sturgeon (new)
- *Exhibit K-2 – Evaluation Report Smelt (new)
- *Exhibit K-3 – Evaluation Report Fish Stranding (new)
- *Exhibit K-4 – Evaluation Report Dungeness Crab (new)
- *Exhibit K-5 – Wildlife And Wetland Mitigation (new)
- *Exhibit K-6 – Royalty Fees For State-owned Dredged Material (new)

NOTE: * Indicates information required for National Environmental Policy Act compliance.

TABLE OF CONTENTS (continued)

VOLUME 2 – LIST OF EXHIBITS (continued)

- *Exhibit K-7 – Evaluation Report Floodplains (new)
- *Exhibit K-8 – Part I - Consistency With Critical Areas Ordinances Including Wetland Mitigation Plan (new)
Part II - Wetland Mitigation Plan (new)
- *Exhibit K-9 – Consistency with Washington Local Shoreline Master Programs (new)

VOLUME 3 – LIST OF EXHIBITS (continuation)

- Exhibit L – Revised Cost Estimate Summary (new)
- Exhibit M – Revised Economic Analysis (new)
- Exhibit N – Physical and Biological Studies of the Deep and Shallow Water Sites (new)

VOLUME 4 – COMMENT LETTERS ON THE DRAFT SEIS AND CORPS RESPONSES

VOLUME 5 – PUBLIC TESTIMONY

NOTE: * Indicates information required for National Environmental Policy Act compliance.
