

TO: Dr. Donald Lindberg, M.D.

FROM: Ken Henschel
HMD

SUBJECT: Dr. Robert Van Hoek, M.D.

In response to your request for information on Dr. Van Hoek's involvement in HSMHA and/or RMPs, I have located some materials. Enclosed is a copy of his entry in Who's Who in America. His official position in DHEW throughout the time period from 1966-1975 was traced through old issues of the U.S. Government Manual and the Annual Report of DHEW, the latter of which was incomplete in our collection for these years.

He was appointed to his first higher administrative position in 1968.

1968-1970: Director, Federal Health Programs Service (part of HSMHA).

1970-1972: Associate Administrator for Operations, HSMHA.

1972: Deputy Administrator for Health Services Delivery, HSMA.

1973: Director, National Center for Health Services Research and Development, (under HRA: Health Resources Administration).

1974: Associate Administrator of HSA: Health Services Administration.

1975: Acting Administrator of HSA.

Note that in 1973 HSMHA was divided into HSA, HRA, and as well as additional agencies or administrations. RMPS was transferred from HSMHA to HRA for the brief remainder of its existence. The U.S. Government Manual for 1974-1975 lists Dr. Harold Margulies as Deputy Administrator of HRA; no one is listed as being Director of RMPS, no does RMPS appear anywhere in the organizational description of DHEW. Perhaps the various programs were finishing up on a local basis by this point.
