The Finest Organic Seeds For Your Customers & Business

In 1989, we started with a simple mission: to help preserve biodiversity and promote sustainable, organic agriculture by cultivating and disseminating an extensive range of open-pollinated, organically grown, heirloom and traditional vegetable, flower and herb seeds. This is still our mission.

We seek out traditional varieties from the Americas and treasured heirlooms from abroad, many of which are in danger of being lost due to the rapid consolidation within the seed industry and the decline of indigenous agriculture and seed-saving knowledge.

The organic industry grows steadily by 20% each year, and there are more environmentally aware gardeners every day. Give your customers the opportunity to be part of change, one seed at a time.

2009 Wholesale Seed Rack Program

FLASHBACK CALENDULA

Superior Seeds Perennial Value

Join us in our mission to preserve biodiversity and support sustainable, organic agriculture.

100% Certified Organic Seeds

For 20 years, Seeds of Change has been committed to exclusively offering 100% certified organic seeds to gardeners and farmers in the U.S. and Canada.

- We now have over 600 varieties available.
- Our seeds are 100% certified organic, GMO-free, and chemical- and pesticide-free.
- Seeds of Change offers original, heirloom, traditional, and rare seeds.
- Our seeds are produced through our network of certified organic family farms and nurseries, professional growers, and on the Seeds of Change Research Farm and Gardens.
- Our seeds are independently tested for high germination rates and purity, and are proven to produce healthy, hardy plants.

Since 1989, the Seeds of Change mission has been to preserve biodiversity and support sustainable organic agriculture.
