Your Kidneys. Unhealthy Kidneys Make Impure Blood,

your kidneys once every three minutes.

The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are stok or out of order, they fail to do their work,

cess of uric acid in the blood, due to neglected kidney trouble. Midney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries. It used to be considered that only urinary troubles were to be traced to the kidneya but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits

rant, at Lafayette and Walmit sts., Jefferson, Texas, says: "For several years my wife suffered with kidney trouble. She had a dull, grinding pain in the small of the back oxtending at times to the very top of her head. The kidney secretions were irregular and of an unhealthy appearance. She was feeling so bad that she told me to go to the doctor, and it just happened at that time that an advertisement of Doan's Kidney Fills attracted my attention and we sent to J.F.
