

*Statement to accompany list – January 2004:* This is a list of species that have been determined by floristic analysis to be invasive or potentially invasive in the state of Connecticut, in accordance with PA 03-136. The Invasive Plants Council will generate a second list recommending restrictions on some of these plants. In developing the second list and particular restrictions, the Council will recognize the need to balance the detrimental effects of invasive plants with the agricultural and horticultural value of some of these plants, while still protecting the state's minimally managed habitats.

In May 2004, Public Act 04-203 banned a subset of the January 2004 list making it illegal to move, sell, purchase, transplant, cultivate, or distribute banned plants.

@ column indicates growth form or habitat: **A** = Aquatic & Wetland; **G** = Grass & Grass-like; **H** = Herbaceous; **S** = Shrub; **T** = Tree; **V** = Woody Vine

**Explanation of symbols after Common Name:**

(P) indicates Potentially Invasive (all other plants listed are considered Invasive in Connecticut)

\* denotes that the species, although shown by scientific evaluation to be invasive, has cultivars that have not been evaluated for invasive characteristics. Further research may determine whether or not individual cultivars are potentially invasive. Cultivars are commercially available selections of a plant species that have been bred or selected for predictable, desirable attributes of horticultural value such as form (dwarf or weeping forms), foliage (variegated or colorful leaves), or flowering attributes (enhanced flower color or size).

^ indicates species that are not currently known to be naturalized in Connecticut but would likely become invasive here if they are found to persist in the state without cultivation

**BAN** column indicates ban date: **2003** = banned under PA 03-136; **2004** = effective October 1, 2004; **2005** = effective October 1, 2005; **N/A** = invasive or potentially invasive plants not banned under PA 04-203

COMMON NAME	@	SCIENTIFIC NAME	SYNONYMS	BAN
American water lotus (P)	A	<i>Nelumbo lutea</i> (Willd.) Pers.	American lotus-lily	2005
Amur honeysuckle	S	<i>Lonicera maackii</i> (Rupr.) Maxim.		2004
Amur maple (P)	T	<i>Acer ginnala</i> L.		N/A
Autumn olive	S	<i>Elaeagnus umbellata</i> Thunb.		2004
